

The St. Croix Valley Riders believes in and sponsors motorcycle training and education, not legislation. SCVR encourages political involvement of its membership. SCVR actively works towards motorcycle safety and awareness; it improves motorcyclist's image and welcomes *all* bikers regardless of brand or type of bike one rides. SCVR sponsors charitable events and any event that will further motorcyclist's rights. The St. Croix Valley Riders promotes public awareness, motorcycle safety, training and education. It works to protect your motorcycling rights.

SCVR is not a gang or a club; it supports the premise that bikers, not politicians or insurance companies, know best what should be done to protect themselves on the road. SCVR believes that rider training, improving public awareness, and education of the public will and has improved our safety on the road. SCVR believes in actively working to see that politicians know where its members stand and show that it's a strong organization, working with them or against them.

Please join the fight.
